

Alabaster Dome Pendant Lamp

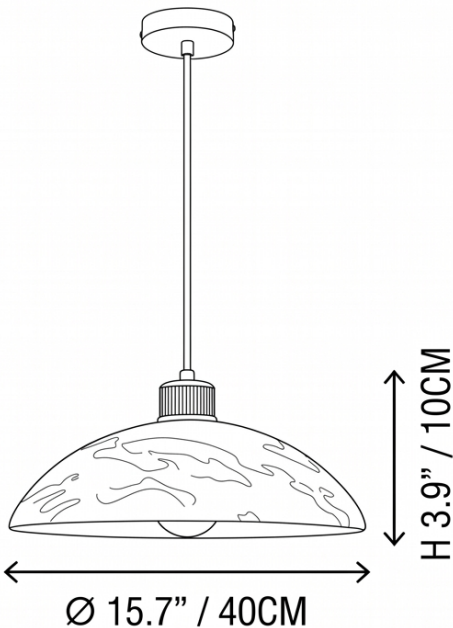

Alabaster Dome Pendant Lamp

Description

This pendant shapes a wide, shallow dome from genuine alabaster stone, with the natural veining and cloud-like inclusions of the material fully visible across the surface, so the shade reads as a piece of sculpted stone as much as a light source. A brushed brass fitter with fine ribbed detailing caps the dome and connects it to the drop. Its a hardwired ceiling pendant mount, suiting modern organic, transitional, or minimalist dining rooms, kitchen islands, or entryways.
