

Alabaster Globe Pendant Light

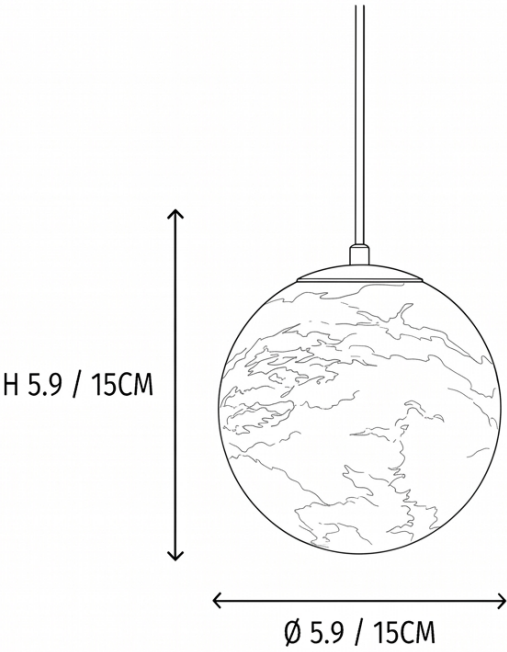

Alabaster Globe Pendant Light

Description

This alabaster sphere pendant hangs a single globe cut from natural Spanish alabaster stone below a solid brass fitter and black cord, so the sphere reads as a soft, glowing orb once lit rather than a flat round shade. Because the stone is natural, each sphere carries its own cloudy veining pattern, giving the light an uneven, marble-like glow. Suitable for modern bedroom nightstands, kitchen islands, or entryways, it scales from a single accent globe to clustered trio for wider coverage.

Drawing

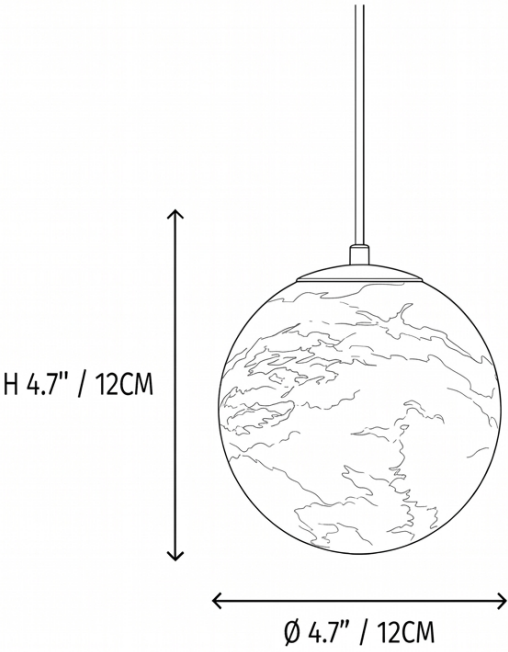

Type	Pendant Light (Alabaster Globe) Bedroom / Kitchen Island / Entryway (scales from single to clustered trio)
Environment	Indoor Ceiling Mount (Hardwired) (Hanging Wire cord)
