Installation Guide

1. Install the upper light source
2. Fit the glass shade【with the large hole down】
3. Screw the iron plate onto the exposed tooth rod the middle of the glass shade

Warning: Make sure the line is not energized until installation is complete.

For the safety of yourself and others, we strongly recommend that you install the lighting fixtures under the guidance of an electrician or other professional. Our lighting fixtures have undergone rigorous testing. Our company will not be held responsible for any damage to the fixtures or other accidents resulting from improper installation due to a lack of professional expertise.

Notes: The waterproof rating of indoor lighting fixtures is IP20, indicating that they are not waterproof. Please refrain from using them in damp environments such as bathrooms.
