

Matte Dome Metal Pendant Lamp

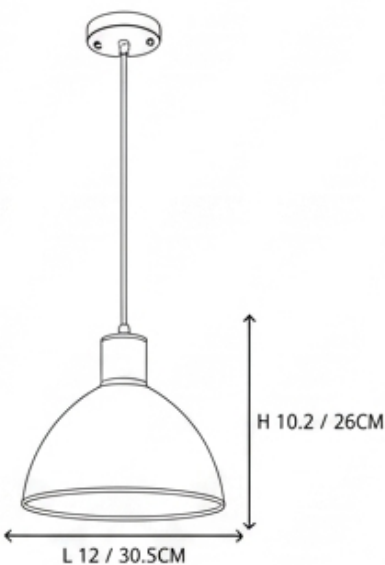

Matte Dome Metal Pendant Lamp

Description

This pendant lamp keeps its form simple: a solid matte black metal dome shade, rounded and unbroken by seams or cutouts, with a white interior that reflects the bulb's light back down in a clean, even pool. A slim black cord drops the fixture straight from a matching round ceiling canopy, so nothing distracts from the dome's smooth, minimal profile. Suiting a Nordic-style kitchen island, dining table, or entryway.

Drawing
